[Copyright notice](#)

1. [Preface](#)
 - 1.1 Portlet 1.0 Compatibility
 - 1.2 Additional Sources
 - 1.3 Who Should Read This Specification
 - 1.4 API Reference
 - 1.5 Important Dependent Java™ Specifications
 - 1.6 Dependent Java™ Versions
 - 1.7 Terminology
 - 1.8 Providing Feedback
 - 1.9 Acknowledgments
2. [Overview](#)
 - 2.1 What is a Portlet Bridge?
 - 2.2 What is a Portlet?
 - 2.3 What is JavaServe™ Faces?
 - 2.4 Architectural Overview
 - 2.5 Terminology
 - 2.6 What's New in Portlet 2.0?
 - 2.6.1 Events
 - 2.6.2 Portlet Served Resources
 - 2.6.3 Public Render Parameters
 - 2.6.4 Portlet Filters and Wrappable Request/Response Objects
 - 2.6.5 Dispatch Changes
3. [Bridge Interface](#)
 - 3.1 Discovering and Instantiating the Bridge
 - 3.2 Initializing the Bridge
 - 3.3 Destroying the Bridge
 - 3.4 Request Processing

- 4. [GenericFacesPortlet](#)
 - 4.1 Configuration
 - 4.2 Structure
 - 4.2.1 init()
 - 4.2.2 destroy()
 - 4.2.3 doDispatch()
 - 4.2.4 doView(), doEdit(), doHelp(), processAction(), serveResource(), processEvent()
 - 4.2.5 Request Processing
 - 4.2.6 getBridgeClassName()
 - 4.2.7 getDefaultViewIdMap()
 - 4.2.8 getExcludedRequestAttributes()
 - 4.2.9 isPreserveActionParameters()
 - 4.2.10 getResponseContentType()
 - 4.2.11 getResponseCharacterSetEncoding()
 - 4.2.12 getBridgeEventHandler()
 - 4.2.13 getBridgePublicRenderParameterHandler()
 - 4.2.14 isAutoDispatchEvents()
 - 4.2.15 getFacesBridge()
 - 4.2.16 getDefaultRenderKitId()
- 5. [Bridge Lifecycle Requirements](#)
 - 5.1 Request Lifecycle
 - 5.1.1 Bridge Request Lifecycle
 - 5.1.2 Managing Lifecycle State
 - 5.1.2.1 Excluding Attributes from the Bridge Request Scope
 - 5.1.2.2 Considerations in Managing the VIEW_STATE_PARAM parameter
 - 5.1.2.3 Considerations for Managing Faces Messages
 - 5.2 Executing a Faces Request
 - 5.2.1 Acquiring a Faces Lifecycle
 - 5.2.2 Acquiring the Faces Context
 - 5.2.2.1 Identifying the Portlet Request Phase
 - 5.2.3 Determining the Target View
 - 5.2.4 Executing a Portlet Action Request
 - 5.2.5 Executing a Portlet Event Request

- 5.2.6 Executing a Portlet Render Request
- 5.2.7 Executing a Portlet Resource Request
- 5.2.7 Executing a Portlet Event
- 5.2.8 Releasing the Faces Context
- 5.3 Processing Public Render Parameters
 - 5.3.1 Configuring a Public Render Parameter Mapping
 - 5.3.2 Processing incoming Public Render Parameters
 - 5.3.3 Processing outgoing Public Render Parameters (changes)
- 5.4 Supporting PortletMode changes
 - 5.4.1 Mode changes and Lifecycle management
 - 5.4.2 Encoding PortletMode changes in Faces navigation
 - 5.4.3 Navigating to a mode's last viewId
- 6. [Bridge Requirements for Managing Faces](#)
 - 6.1 External Context
 - 6.1.1 FacesContextFactory
 - 6.1.2 FacesContext
 - 6.1.3 ExternalContext Methods
 - 6.1.3.1 Methods that deviate from Faces 1.2 javadoc
 - 6.1.3.2 Methods that conform with Faces 1.2 javadoc
 - 6.2 ViewHandler
 - 6.2.1 Method Requirements
 - 6.2.2 Other Methods
 - 6.3 StateManager
 - 6.4 Phase Listeners
 - 6.5 Expression Language Resolution
 - 6.5.1 Implicit Objects
 - 6.5.2 Bridge ELResolver
 - 6.5.2.1 Additional Implicit Support for Portlets
 - 6.5.2.2 ELResolver Requirements
 - 6.5.2.3 The javax.portlet.faces.preference.Preference interface
 - 6.6 Namespacing
 - 6.7 Supporting isPostBack() during RenderPhase
 - 6.8 Supporting PreDestroy Annotated Methods
 - 6.8.1 Managed Bean Changes
 - 6.8.2 Bridge requirements
 - 6.9 Setting the RenderKit used by a Portlet

- 7. [Supporting Faces WriteBehindResponse](#)
 - 7.1 Support via a ServletFilter
 - 7.1.1 Example Configuration
 - 7.1.2 Version Considerations
 - 7.1.3 Performance Considerations
 - 7.2 Support via Portlet 2.0 ResponseWrapper
 - 7.2.1 Configuring the Bridge to use a PortletResponseWrapper/WriteBehindResponse implementation
 - 7.2.2 Version Considerations
- 8. [Faces Extensions in the Bridge Environment](#)
 - 8.1 Configuration
 - 8.2 Initializing Extensions
 - 8.3 Portlet Considerations
 - 8.4 General Considerations
 - 8.5 Cohabiting with the Bridge's ViewHandler
 - 8.6 Cohabiting with the Bridge's StateManager
 - 8.7 Excluding Attributes
